WAVERLEY
THE SHADING EXPERTS

ShadeTech® VB Aluminium Venetian Blind Systems

By Waverley

Detailed description

A traditional and well proven system, venetian blinds offer infinitely adjustable shading and can be totally closed for privacy when required. Large areas of glazing can be covered economically and a huge number of permutations ensure a shading solution to meet prevailing conditions. ShadeTech® venetian blinds have steel headrails and powder coated aluminium slats in three widths with a multitude of textures and colours.

Control is by cords to raise or lower the blind and a tilt wand to change the angle of the slats. The headrail, weighted bottom bar, ladder braids and lift cords are colour coordinated. Waverley can provide a number of special options including privacy blinds with no light pinhole, blinds with aluminium headrails for damp environments, partition blinds for internal screens and special blinds with guide wires for tilt/ turn windows.

Features/ Benefits:

- Peace of mind - five year hardware warranty and minimal maintenance.
- Corrosion resistant roll formed steel headrail.
- Choice of 25 and 50 mm wide slats.
- Headrail and bottom rail and all cords match slat colour.
- Concealed brackets give neat finish.
- Safe by design - meets BS EN 13120 child safety requirements (VB-E and VB-G).

Manufactured and installed in accordance with a quality system certified under BS EN ISO 9001: 2008.

Options

Size (maximum, w x drop):

3000 x 3000 mm.
