THE SHADING EXPERTS

Protect your floor and enhance the functionality of your space

How is it different to a normal carpet tile?

Large size - 2m x 1m allowing large areas to be covered quickly (500sqm in 30 mins).

Backing - polyolefin not bitumen. This means it weighs less and its light colour doesn't mark floors.

- ▶ Save money – no maintenance costs
- ▶ Increase revenue – hire out your hall for events with peace of mind
- ▶ Improve exam results – enhance the acoustics in your exam hall
- ▶ Save space – no large, cumbersome rolls of carpet to store
- ▶ Safe - rigid backing allows tile to lay flat and will not curl at the edges
- ▶ Save time - no taping or connecting required

▶ Innovative composition of the fibres provides improved acoustic insulation

▶ Easy to clean - can be jet washed to remove stubborn dirt and stains

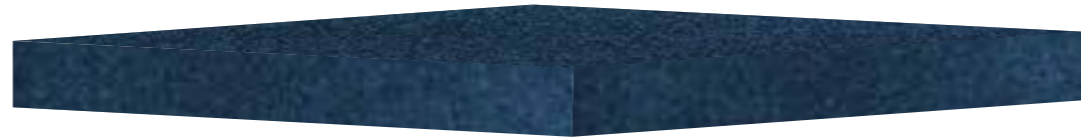

▶ Easy to store – wheeled trolleys available

▶ Unique textured backing is non-slip and non-marking

▶ Fire retardant to Bfl-s1

▶ 100% recyclable

1 Face yarn: 3.2mm 100% Polypropylene needle punch carpet

2 Fiber backing : 1mm Latex impregnation

3 Tile backing: 1mm Polyolefin with fiberglass strengthening for dimensional stability
